- AJAX
- Wordpress
- React
- Vite + React
- Expo React Native
- JQuery
- MongoDB
- MySQL
- Python
- Typescript
- Java
- C/C++

DESIGN TOOLS

- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign
- Adobe After Effects
- Adobe Premiere Pro
- Figma

COLLAB TOOLS:

- Microsoft Teams
- Trello
- Jira
- Slack
- Git
- FigJam

ADDITIONAL:

- CapCut
- Audacity
- AutoCAD
- Fusion360
- Blender
- Microsoft Office Suite
- IBM WatsonX

Education

DIGITAL DESIGN & DEVELOPMENT DIPLOMA

Sept. 2024 - May 2026

British Columbia Institute of Technology
Burnaby Campus, B.C.

COMPUTER SYSTEMS TECHNOLOGY DIPLOMA

Sept. 2022 - April 2024

British Columbia Institute of Technology
Burnaby Campus, B.C.

(Incomplete) 2 Full-load terms, 3 Part-time terms.

Projects

LEAD FULL-STACK DEVELOPER

Sept. 2025 - Dec. 2025

D3/FSWD x ConnectHER Design & Tech Innovation Showcase
SafeSpace App, 1st Place

- Developed, delegated, and planned core functionalities for a reporting app that leveraged AI such as GPT-4o mini, IBM's WatsonX, and tech such as Expo Native React, and supporting APIs for features to support women and underrepresented tradespeople.
- Lead and facilitated the process among a team of developers in producing the front-end and backend of the app over 4 months.

- Participated in a live booth demo and final presentation that highlighted the app's functionality, business plans, benefits, and potential future endeavors in the trades industry in front of industry reps.
- Additionally contributed as the app spokesperson in social/networking events such as the BCIT student excellence showcase collider event.
- Assisted in additional duties such as promotional film script-writing, filming, and acting.

UI/UX Researcher & Content Developer

Jan. 2025 - May 2025

BCIT D3 Projects 1 Showcase
Montro App

- Contributed to developing UI/UX wireframes and direction to a gamified expense tracking tool app targeted towards young adults.
- Researched effective and existing and upcoming solutions/apps for similar tools in the market for finance and expense tracking.
- Communicated and collaborated with a group of developers (IDSP) as a simulation for spec handling, design-side UI/UX development and handoff to a production development team.
- Contributed to and developed wireframes for a dedicated flow and portion of the app.
- Produced promotional film script-writing, planning, and filming.

Relevant Activities

FRONT-END DEVELOPER

April 2024

YVR Smartlens Hackathon

Participant, 3rd Place Group "Call of Code"

- Contributed to developing a working application in a working team of 6, under a week.
- Designed the core front-end visual design for an app that integrated real-time airport camera data through a raspberry pi to scan and filter through facility discrepancies regarding baggage & facility issues.
- Participated in a fast-paced series of live panels that highlighted the app's business plans, offered benefits, live demonstrations, and the project's potential future endeavors.

LEAD FRONT-END DEVELOPER

May 2024

BCIT QDS Hackathon

Participant, 2nd Place

- Lead the process of designing and developing the visuals (UI/UX) side for a working application in a working team of 5 under 36 hours.
- Designed front-end visual design for an application that allowed our target market users (students) to stream their cameras on a centralized web-app intended for study session streaming.
- Participated in a fast-paced series of live AND digital presentations/panels that highlighted the finalized app's business plans, offered benefits, live demonstrations, and potential future endeavors.

CLUB EXECUTIVE MEMBER

Jan. 2023 - Dec. 2024

BCIT "Coding for all" club

Student tutor, Club contributor

- Hosted 30-person class HTML/CSS/JS coding review sessions in web design for CST program students.
- Provided light tutoring aid to previous semester students in need of course help/insight.
- Developed the envisioning, concept, and graphic of the club's logo design using Adobe Illustrator.
- Assisted in organizing club events (Every two weeks).

Work Experience

FREELANCE VOICEOVER ARTIST

April 2024 - Current

FuZe Studios Ltd. ("Guts & Blackpowder")

- Actively collaborated with a video game development team to voice various sub variants of player-controlled voice "callouts" in an action/horror themed setting (~5 sub-variations).
- Delivered a wide variety of voice work that ranged from quiet whispers, monologues, dialogues, to active yelling and efforts (combat quips, battlefield screams, death screams, taking damage).
- Exercised, improved, researched, and practiced accent intonations (British RP, Cockney, South)
- Maintained consistent character tone and intonation well over 3-6 months between recording sessions, all through online delivery.
- Utilized a standard recording software (Audacity) using industry-par equipment (Rode NT-1 Condenser Mic, UA Volt 2 Audio Interface) to deliver quality audio files from a home studio.

SENIOR SALES ASSOCIATE

March 2021 - August 2025

Kin's Farm Market Ltd. (Chilliwack)

- Engaged in daily sales efforts and promotions to ensure CHW branch goals were achieved.
- Worked efficiently in tight knit teams of ~3 to sell, stock, and advertise fresh produce.
- Handled POS services, start/end-of-day finance handling along, and inventory checking .
- Retained and established long-time customer relations as result of customer service experience.
- Regularly performed hands-on stocking duties on the floor and in stocking whilst maintaining POS duties.
